Diagrams Christian Kuras, Duncan MacKenzie, 2015 Literary Nonfiction. Art. Introduced by Matthew Scott. DIAGRAMS is a book that collects 49 diagram drawings made between 2009 and 2014, and includes a conversation-based essay between the artists and the Canadian math scholar, Matthew Scott. These diagrams are an attempt at using the objective visual language of mathematical diagramming to illustrate some of the most important concepts we use to underpin our subjective understanding of the world. In what seems like a hopeless task, the central concern is not how these must inevitably fail to communicate in a truly objective way, but how they might actually succeed.

Marc Jacobs Advertising 1998-2009 Juergen Teller, Marc Jacobs, 2009 For more than a decade Juergen Teller has worked with Marc Jacobs on the advertising campaigns for each of the Men's and Women's Marc Jacobs collections, Marc by Marc Accessories and perfume lines. Teller's idiosyncratic visual style and use of unusual models has been instrumental in establishing what has become one of the preeminent fashion brands of our times. Reflecting the intelligence and individuality of the Marc Jacobs brand, the models have included Sofia Coppola, Charlotte Rampling, Meg White, Kim Gordon and Thurston Moore, Michael Stipe, Rufus Wainwright, Harmony Korine, Cindy Sherman, William Eggleston, Samantha Morton, Winona Ryder, Roni Horn, Victoria Beckham and Teller himself, among many others. This volume brings together a selection of images from all the campaigns to create a single collection that marks the significance of this collaboration in both fashion and visual culture. Photographer Juergen Teller was born in Erlangen, Germany in 1964 and has lived in London since 1986. His work in book, magazine and exhibition form is marked by an intriguing refusal to separate his commercial fashion pictures from his more autobiographical uncommissioned work. Teller's photographs have been published in influential international publications such as W Magazine, i-D and Purple and have been the subject of solo exhibitions at The Photographers' Gallery in London and the Fondation Cartier Pour l'art Contemporain in Paris. In 2003 Teller was awarded the Citibank Prize and in 2007 he was one of five artists to represent Ukraine in the 52nd Venice Biennale. Marc Jacobs was born in New York City in 1963. He graduated from Parsons School of Design in 1984 with many of the school's highest honors, including Design Student of the Year. In 1986 he designed his first collection under the Marc Jacobs label and in 1997 he became Artistic Director of Louis Vuitton. Marc Jacobs International, LLC has expanded to include more than 50 stores worldwide. Jacobs splits his time between New York and Paris.

Wicca Elemental Magic Lisa Chamberlain,2014-10-22 Everything You Need to Know About Working with the Magic of the Elements For thousands of years, our ancestors believed that the Elements - Earth, Air, Fire, and Water - were the building blocks of the Universe, and their inherent properties and energies could be directed to manifest particular outcomes. This belief grew and evolved over time as part of the Western Mystery Tradition, a body of beliefs that has had significant influence on the dynamic nature-based religion known as Wicca. Through ritual and magic, Wiccans interact with the primal forces of the Elements in a variety of ways, calling upon them for assistance in the transformation of their realities just as the

earliest shamans did in the ancient world. You may already be aware of some aspects of how the Elements figure into Wiccan practice. For example, you may know that each is represented by different ritual tools-the pentacle for Earth, the wand for Air, the cup for Water and the athame for Fire. But did you know that the psychic energies of each Element are found within each and every person on the planet? Or that by connecting spiritually with a particular Element you can help address an imbalance in your life? And let's not forget the all-important Fifth Element, known in many traditions as Akasha, or simply Spirit, which contains the other four and yet is an Element in its own right. But if all of the above is news to you, don't worry-it really doesn't matter how much you've learned so far about Wicca or the Elements. Elemental Magic was created for both beginners and more experienced Witches alike. In this guide, best-selling author Lisa Chamberlain covers it all: the basics of incorporating the Elements into your rituals, as well as less-often discussed topics like animism, Elemental personalities, and using these forces of nature to help you enhance your magical perception. Indeed, as you will see, an Element-centered practice is a rich and rewarding way to deepen your connection to the Goddess and God, to Nature, the Universe, or whatever terms your particular belief system ascribes to the power of All That Is. Foundations of Elemental Magic In order to truly grasp the underlying concepts behind working with the Elements, it's important to learn how these components-Earth, Air, Fire, Water and Spirit-came to be defined in Western magical traditions. You'll also need a close look at each individual Element to understand its inherent properties and its potential to transform your magical practice. You'll find all of this in Elemental Magic and much more: Our earliest civilizations' understandings of the Elements and their relationship to magic How recent scientific observations reflect these ancient concepts The core magical properties of each Element: Earth, Air, Fire, Water and Spirit, and how we are personally influenced by these energies Ways of attuning with individual Elements for enhanced living and magical practice Elemental relationships with deities, elemental beings, and spirit animals An overview of Wiccan ritual with a focus on the Elements, including altar layout, casting the circle, and calling the quarters Techniques and magical practices for working with individual Elements Spells, rituals and charms focused on each individual Element In addition, you'll find tables of correspondence covering the magical properties of each Element, as well as associated colors, spell ingredients, ritual tools and more at the end of the guide. Elemental Magic will be a treasured reference, magical guide, and springboard for you to make your own discoveries about the power of the Elements and the magic they have to offer.
